Thank you for the opportunity to comment on the proposed project related to the Shoreline Substantial Development permit for the East Lake Sammamish Trail Inglewood Hill Parking Lot, SSDP2016-00414. I have reviewed the associated project documents, the indicated parcels, and reviewed our files and database concerning historic and cultural resources.

The proposed project resulted in a Final Environmental Impact Statement (EIS) that should have addressed the identification of historic and cultural resources and any significant adverse impacts that may be associated with the project. Reference that document to ascertain any additional concerns that may come from this particular portion of the project. I believe archaeological surveys were completed and should be referenced prior to any ground disturbance activities accompanying project commencement.

Thank you and feel free to contact me with any questions.

Regards,
-Ivy
