

LOW IMPACT DEVELOPMENT STORMWATER FACILITY INFORMATION FORM

ABOUT THE LOW-IMPACT DEVELOPMENT STORMWATER FACILITY INFORMATION FORM

The Single-Family Residence (SFR) Low Impact Development (LID) Stormwater Facility Information Form (FIF) is a document used to track, identify, and maintain stormwater facilities. Each LID FIF should have an attached sketch showing all the stormwater components.

The submitted sketch is used for inspection and maintenance purposes. It should not be submitted as a typical site plan, but rather a scaled-down version only depicting relevant storm system and site information.

Submittal Instructions

Complete & save this form before uploading it to MyBuildingPermit.com in the “File Upload” section along with the rest of the submittal documents.
